RAINFALL
WEATHER GAUGE READINGS
By Dick Wallace
For the season 6.43

Said In Cypress

— B K —

That last week and this week's performance of our duty as an editor will not win friends for us, we know, especially in the social set. To have the kind of newspaper the publisher likes, it has been necessary to leave out some of the more newsworthy items of social interest around town. Just to let you know that it wasn't because we didn't know about them, we will mention that Evie really "foxed" Mrs. Dillingham when she called to supposedly take her to a radio broadcast. Pretending to have forgotten the tickets, they arrived at the Junker residence where a group of friends had gathered to shower Mrs. D. with layette gifts.

That when Mrs. A. E. Holborow entertained members of the eighth grade recently with a combination valentine and surprise birthday party, Peggy Flynn, the honoree, received her first orchid. As though that weren't enough for one one young girl, her friends delighted her with the presentation of many gifts, and Mrs. Holborow provided a four-tiered birthday cake.

That if you want to carry this still further, in the last two weeks there have been parties given by the following, accounts of which would normally appear in these columns: Mr. and Mrs. Pierce Ausburn for Gayle's seventh birthday anniversary; Mr. and Mrs. Milton Herold for Mr. and Mrs. Gordon Mackay; Judy Belle Wicker and Carolyn Lenz, valentine party; Mr. and Mrs. Len White's 500 club; Virgil Isbell, for CE group of the Stanton community churcn, valentine party. Multiply this information with the names of an average of 14 guests at each affair, add a list of all the goodies that were served on each occasion, and divide the news up in the paper. See what we mean? We'd have to subtract our advertising, which perish forbid!

That when our friends are upset, it naturally takes some of the joy of living away from us, too. And life has not been a bed of rosses for several we know lately. Take for instance Marian Hubbard and her husband, Glenn. Last week-end they were notified from the vicinity of Lake Gregory in the mountains that the family had better come up and see to the welfare of their summer cabin, which was threatened because of the heavy fall of snow. They had to stand by helplessly as the cabin collapsed before their very eyes. Not only is the loss severe, but anything that might have been salvaged under normal circumstances will not stand much chance of survival from the mice, squirrels and elements between now and the time that the weather will permit a complete overhaul.

That we sat next to George Kellogg, of Yorba Linda, at the associated dinner meeting in Santa Ana Tuesday night. In extolling the merits of his hometown, he tried to tell us it has been warmer there than anywhere else in Orange county this winter. He carries a thermometer in his hands, it seems, and when he is at the mail box at the foot of the drive to his home, the mercury is at a record high. As he ascends the hill to his residence, there is a corresponding drop which finally shows a difference of ten degrees. The only moral we could draw from his story was that he probably should have lived in his mailbox! Kellogg, by the way, is credited with being responsible for the fact that Imperial highway is practically a freeway, with no sharp turns, corners, or intersections to menace traffic.

That it wouldn't be fair to mention the dinner without acknowledging that our companions across the table included the illustrious mayor of Tustin, his city councilmen, and our publisher friend, Tustin News Quinn. We attended the dinner with Mr. and Mrs. George Bellis, and the three of us attempted to adequately represent Buena Park and Cypress. Monsieur Gallienne was very gallant and we feel that Cypress was duly publicized.

That having mentioned Tustin, we were reminded this week that curtain call for Holiday stage is not too far away. When a six-month subscrivtion is received in the spring, we know that the whites of Ken Carmichael and Harold Turney's eyes may be expected to hove into view momentarily.

That we hadn't forgotten about the twin daughters born last September 24 to Mr. and Mrs. C. E. Swain. Julie and Judy are very much alike and both as good as gold their mother reports. They keep the parents busy and usually are seen abroad one at a time as papa and mama divide baby-sitting duties.

Adverse Spring Weather Slows Boat Building Here

Although the rainy season has its good points, the bad weather resulting this year from a prolonged winter has delayed the boat-building industry in Cypress. Under construction at the present time are two craft being remodeled by ship-builder John Farnell and his workmen, which he hopes will be completed and delivered within sixty days. One is a 90-passenger navy personnel 40-footer and the other is similar, except it was known as a sea-plane service craft. Both are navy surplus and are being rebuilt into commercial fishing boats. They will carry about 11 tons each of frozen fish, will be refrigerated and powered with 125 horse-power Buda's.

Farnell will soon begin work on the construction of a fishing boat to be built from his own plans and specifications. A half-breadth model has already been approved. Ordered by Charles Smith, it will be 44 x 14 x 6, carry 25 tons of frozen fish and be powered with a General Motors six-cylinder series. Smith, a commercial fisherman, lost his boat last year when it was swept ashore on the Mexican coast. While looking for sardines for bait fish ,they ran onto the beach in the night, unaware they were so close to the shore.

When the weather breaks, this interesting occupation on La Salle street in Cypress Acres will keep several men occupied for the summer months.

Dairy Will Offer Drive - In Service For Cash – Carry

Cypress will welcome another type of drive-in service in the near future which will give a distinctive service to this area. A de luxe dairy, on Juanita street, will offer a cash and carry drive-in service to retail customers. Being built by the owners of the Signer Dairy farms of Compton, Signer is planning for one of the most attractive businesses in this section of the country, including an attractive building housing the latest equipment and unusual landscaping surrounding the new homesite and drive-in itself.

All the dairy products such as milk, cream, buttermilk, cottage cheese and chocolate milk will be available for purchase. At the present time the management milks 165 cows a day, and the milk is sold in job lots to stores only. However, it is intended to increase the herd to over 300, which will allow for an adequate cash and carry service. Watch this paper for advertising giving further details.

Eighth U. S. Army Honors Tryon In Tokyo, Japan

Recruit Robert Tryon, son of Mr. and Mrs. C. D. Rogers of Cypress, was presented the Occupation Medal for his service with the First Cavalry division in the occupation of the Japanese capital, Tokyo.

Joining the army in August of 1948, Tryon was sent to Fort Ord, California, for eight weeks of basic training. Upon his arrival in Japan, he was assigned to the Eighth Engineer Squadron with headquarters at Camp Drake, Tokyo, Japan.

Tryon is a graduate of the Anaheim union high school. He was employed by the Harvey Trailer court of Cypress as a gardener before joining the army.

Collegiate choristers from Pasadena College A Cappella choir are shown on tour throughout southern California. They will appear at the South Gate Church of the Nazarene on Sunday, February 27, at 2:30 p.m. The church is located at 9628 State street.

Fire Destroys Contents Of Ronan Home

(By Forrest Lowrey)

Fire destroyed the contents of the Ronan home located at 5391 Camp street last Tuesday morning at ten o'clock. Mrs. Ronan reports that while she was in the kitchen, the kerosene heater in the living room exploded and the flames spread rapidly.

The furniture was considered a total loss, including a television set presented to Mrs. Ronan by her son at Christmas time. She could not attempt to extinguish the flames, as they spread so rapidly. The fact that the floor is cement was credited with preventing the entire structure from being burned. Mrs. Ronan was slightly burned about the arms as she was leaving the house.

Thomas Ronan, a son, residing with his mother, was not at home at the time of the fire. He had been making preparations to build a home on the west side of the dwelling now occupied by the family. The new home will be built according to schedule, and the old building rejuvenated for a garage.

VFW Auxiliary Members Help Sponsor Benefit

The auxiliary to Cypress post number 9847 of the veterans of Foreign Wars welcomed to its membership recently Julia Bouse, of Gay street. The trip to the hospital made Thursday was planned. Stamps, stationery, magazines, cup cakes and a special birthday cake for two patients in the ward whose birthdays are this month were the gifts the members took with them. Among those making the trip were Ann Lucas, hospital chairman, Betty Knauss and Margaret Dyer.

The publicity chairman for the next few months, Jean Kreissler, is anxious that the public be reminded of the benefit dance to be held at municipal auditorium in Long Beach Saturday night. This dance is sponsored by hospital committee, south, and the donation is one dollar. Movie stars will be present and a name band will furnish the music. It is hoped that many Cypress friends will be present.

Interested persons who can donate much needed articles to the work of the rehabilitation program and hobby shop in the veterans hospital are reminded that the work is still being carried on and donations are badly needed. Among the many items which can be used are old jewelry, alarm clocks, felt hats, scraps of yarn, razor blades, umbrella frames, and other discarded possessions. For further ifnormation, or to deposit gifts to this work, see Mrs. Dorothy Smith, 5601 Vonnie Lane.

When Fullerton auxiliary held courtesy night on a recent Friday, President Dorothy Smith was guest of President Lucille Cousins. Other members from Cypress honored were Betty Knauss, guest of their historian; Della Priddy, guest of their banner bearer, and visitors Francis Demiris, Hazel Luty, Kathy Loney and Jean Kreissler. Mrs. Belle Griggs, from Placerville, Sierra Nevada No. 2680, who has been visiting her daughter, Mrs. Robert Mckee, and Mrs. Louise Neary, formerly of the Southbury, Massachusetts auxiliary, but now of Cypress also were visitors.

OUR DEMOCRACY——by Mat

GOOD CIRCUMSTANCES—

EACH GENERATION IN AMERICA HAS HAD ITS OWN MEASURE OF WHAT CONSTITUTES "GOOD CIRCUMSTANCES."

IN THE PIONEER DAYS OF OUR COUNTRY, A MAN WAS IN GOOD CIRCUMSTANCES IF HE HAD, FOR HIS FAMILY, A HOME IN A LOCATION SECURE FROM ATTACK— A PIECE OF LAND AND A HORSE WITH WHICH TO WORK IT.
LATER ON, AS AMERICA DEVELOPED, AND THE SECURITY OF ITS HOMES BECAME ESTABLISHED, "GOOD CIRCUMSTANCES" CAME TO EMBRACE MORE HOME COMFORTS AND CONVENIENCES — GLASS WINDOW PANES, FRANKLIN STOVES, CHINA DISHES— MORE SUBSTANTIAL TOOLS TO WORK WITH.
BUT THROUGHOUT OUR HISTORY THE CONCEPT OF "GOOD CIRCUMSTANCES" HAS CENTERED AROUND THE HOME AND FAMILY. IT HAS EMBRACED THE OPPORTUNITY TO PROVIDE THE SUBSTANCE OF LIVING, TO NURTURE THE BONDS OF LOVE AND AFFECTION AND TO PLAN CONFIDENTLY TOWARD THE FAMILY'S FUTURE WELL-BEING.

Plans For Teen Agers Take Shape

The Cypress Teen-Canteen movement is in the process of building a strong foundation for its organization. With Stan Doerr as coordinator, both the low teens and high teens have completed their elections and a charter for incorporation is being sought. The groups plan to make their socials self-supporting with the sale of pop and sandwiches, which will be donated or procured at cost. The teen-agers have had discussions at their meetings of the various rules to be abided by, such as no smoking, no drinking, closing of the canteen for high teens at eleven o'clock and for the low teens at nine, and proper adult chaperones.

Carol Dewell, member of the publicity committee for the high teens, described the most recent meeting by saying, "One of the big issues we discussed was that of maintaining order at our dances and how to deal with those who do not want to cooperate with the rules. When the meting was thrown open to discussion by Herb Mandel, there was a general commotion, since we were all full of bright ideas on different things to do. Honestly, I didn't know that so many kids could be so full of good ideas. They wanted a talent show, ice cream socials, skating parties, red shirt dances, colored tie dances, masquerade balls, old fashioned barn dances, and so on. See what I mean? With officers full of ideas like that and everyone backing the canteen 100 per cent, Cypress ought to have the best Teen-canteen in Orange county."

V.F.W. MEMBERS TO HOLD ELECTION

The first meeting night in March, Thursday the eighth, the members of Post No. 9847 of the VFW will hold an election of officers. Installation will be held at the following meeting.

The building fund of the organization grows as each donation on the television set is received.

Former Cypress Girl Engaged

Word has been received from Frankfurt, Germany, announcing the engagement of Marie Eloise Hedblom, daughter of Captain and Mrs. Richard Hedblom, and Corporal Martin Raymond Bugg, son of Mr. and Mrs. Ora Bugg of Greenfield, Missouri.

Miss Hedblom was a resident of Cypress and attended Anaheim high school before her family moved to Germany where Captain Hedblom is with the army of occupation. She is attending high school in Frankfurt. Her fiance is a veteran of World War II and spent two years in the U. S. Marine Corps, later enlisting in the regular army.

The wedding date has been set for January, 1951.

CONSTRUCTION ON A NEW DUPLEX HERE TO PROCEED AS PLANNED

The necessary papers have been secured from the county which will allow for Mrs. Maybelle Dyer to proceed with her plans to construct a duplex on her property. The planning commission had refused a permit earlier unless a garage was included. This was impossible under the existing conditions because of the fact that one end of the alley had been closed with the erection of buildings.

The committee from the chamber of commerce which is responsible for the town's planning and growth was instrumental in aiding Mrs. Dyer when she appeared recently in a meeting with her request for information and help. Following a fire last week, the local chief pointed to the need for keeping streets and alleys clear so that equipment may be more efficiently handled in cases of emergency.

Navy Takes Local Man To Europe

Willoughby Patton, cheif machinist's mate husband of Mrs. Marie Patton of 5702 Vonnie lane, Cypress, recently visited Athens, Greece, and Istanbul, Turkey while serving aboard the destroyer USS Hawkins with the eastern Atlantic and Mediterranean forces, under the command of Admiral Richard L. Conolly.

The Hawkins is on a world cruise as an escort of the aircraft carrier USS Tarawa.

Tommy Coburn Married In Yuma

Coming as a surprise to their many friends is the announcement of Mr. and Mrs. James Coburn of 8851 South Walker street of the marriage of their son, Tommy, to Miss Irma Schliske, daughter of Mrs. Z. Schliske of Hawaiian Gardens. The ceremony took place on February 19 in the Gretna Green Wedding chapel in Yuma, Arizona.

For her wedding the bride chose an attractive grey dress with black accessories.

Warn Use Of Certain Salts

The Orange county health department is the author of a special directive warning that the use of certain salt substitutes containing lithium chloride are dangerous. Three deaths in the east and eight in Los Angeles were apparently due to the use of "Westal." However, the Food and Drug division of the state department of public health has directed that sales be withdrawn not only on "Westsal" but all other preparations which may contain harmful quantities of lithium chloride as "Food Sal," "Salt-o-Sal," "Sodex," "Milo-Sal," and "Saltex."

EXTRA

School Girl Riding Bike In Crash

Karen Siebert, daughter of Mr. and Mrs. Price Siebert, was struck by a car Thursday noon as she was pulling away from the curb in front of the school house on her bicycle. A student in the Cypress elementary school, Karen apparently lost control of her bike in the rain, according to Lionel R. French, of Long Beach, who was driver of the automobile. Both were traveling east on Lincoln avenue.

Karen suffered severe leg injuries and possible concussion. An ambulance took her to the hospital but complete extent of her injuries were not known at the time of this paper's going to press.

Cypress Firemen Hosts To Chiefs From Orange Co.

Speaking before 53 county fire chiefs in their monthly meeting last Thursday evening in the new fire hall, Cassat D. Griffin discussed building and safety laws. He is a member of the Safety Department in Los Angeles county. Weber Zepp, western regional sales manager for Scott Aviation company demonstrated the new type of resuscitator being manufactured by his company. Other guests included Ralph McFadden and Willard Smith, members of the Orange county board of supervisors and Joe Scherman, state forest ranger.

Wives of the fire department members prepared and served a delicious fried chicken dinner, complete in all details. The Misses Carol Domries, of Stanton, and Marlene Fox of Santa Ana, cousins, played both accordion duets and solos.

Boy Scouts Train For County Rally

Troop No. 76, Cypress Boy Scouts, is enjoying a busy schedule of meetings and outside activities, according to Carl Markel, publicity chairman of the sponsoring Post No. 9847 of the local VFW. At their most recent meeting, Scoutmaster Jack Kepner and committeemen Luty, Sutphin and Buzzo instructed the boys in several of the arts they are required to master. Some of them studied signalling, others knot tieing and fire by friction, and another group trained on the field. The meeting was held in the schoolhouse, beginning promptly at 7:30 and being dismissed at 9:30.

Thursday evening, March third in the Fullerton high school gym, a scout rally for the northern Orange Council of Boy Scouts of America will be held at 7:30. Tickets may be purchased from local VFW committeemen or the boy scouts. Attendance will be judged on a percentage basis of troop membership as of the roster March first. Scouts, parents, and friends will be entitled to hand in one ticket at the entrance to the rally. Any scouts whose friends issue more than one ticket will be disqualified.

Two to four scouts may enter each event, which includes all of the skills required by scouting. Prizes will be awarded in the attendance contest.

The troop bought a bugle, and anyone interested in learning to play the instrument can contact Markel at Anaheim 60154, or Scoutmaster Kepner on meeting nights.

Illustrated Talk At Anaheim Forum

Color movies of historical New England will be shown at the free Anaheim public forum in the high school auditorium Monday, February 28, at 7:30 p.m. Philip Noble, photographer and traveler, will comment on the film.

"Because Noble's film and lecture were so well received last year, we have engaged him for our present series," Ralph Focht, forum director said.

Noble's current picture, titled "The Charm of Old New England," shows many of New England's historical landmarks. The film seeks to recapture the life and early customs of eighteenth century Salem and Boston. Plymouth, Nantucket Island, the Conneticut River valley, and the White mountains of New Hampshire are also among the scenes shown.

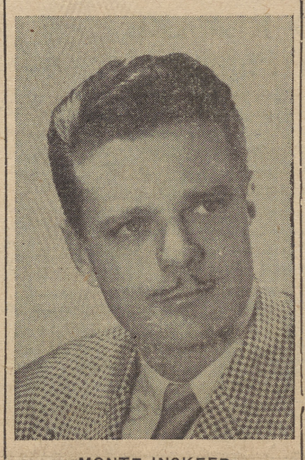
Campaigning For Votes On Sewer Bonds In County

Monte Inskeep Of Cypress Is Appointed

Buena Park will have a new postmaster on March 1. Monte Inskeep will officially succeed to the position held for the past 15 years by Carl Brenner who is retiring.

An inspector from Los Angeles will inventory the stock and make the official transfer on Monday evening, it is reliably reported, with the new postmaster in full charge from March 1.

Brenner has been inactive for several months during which time Inskeep has managed the affairs of the office. Although retiring on pension from the postal service, Brenner will continue to conduct his business dealings in postal fixtures which has long occupied his spare time.



MONTE INSKEEP

Inskeep, the new postmaster, has been serving here as assistant to Brenner since August, 1946. Prior to that date he had been postmaster at Cypress since 1938. Three years of that period he spent in the army, still following the postal service for he was in charge of an APO in northern Phillipines in 1945.

Inskeep has attained considerable recognition in postal circles, serving as president of the Orange County Postmaster's Association in 1946. At present, he is secretary of the association. Always active in civic affairs, he is a member of the Chamber of Commerce, VFW, and this year heads the local den of the Lions club. The past summer he attended the annual postmaster's convention in New York.

Variety of Scenes Featured In Show

The Buena Park show, "Laff It Off", using approximately 150 local people, will open a two-night run March 3 at the Grand Ave. school auditorium, under the sponsorship of the Buena Park Veterans of Foreign Wars.

"Laff It Off" is called the big newspaper revue, in which headlines come to life. Home town folks impersonate famous columnists and give the lowdown on what happens "behind the headlines" as they portray various news features found in the daily newspaper. The show moves continuously from one scene to another, just as a person reading a newspaper turns from one section or feature to another part of the newspaper.

Members of the Associated chambers of commerce and their friends listened Tuesday evening to Raymond V. Darby, chairman of the Los Angeles county board of supervisors, as he presented an informative outline of his county's method in solving its sanitation problems. Speaking before the group in community center clubhouse in Santa Ana, Darby stressed the fact that there are two essentials necessary in a community's growth —water and sewage facilities. He contrasted Orange county's 13 communities to the 44 cities in Los Angeles county, and described many joint programs whereby several communities combine to solve their sanitation problems. Most pertinent to the subject were his remarks concerning the fact that the vote is the people's choice and in a democracy such as ours it is up to the people who pay the bills to make the choice. Darby complimented Orange county on the proposed program which will be voted upon next Monday, February 28.

Dr. Edward Lee Russell appeared at the meeting in his capacity as county health officer to point out that civilization is living on borrowed time if no proper sanitation is provided because of the danger to health involved in communicable diseases in areas dependent on faulty cesspools or other insufficient sewage disposal methods. As a graphic example he likened the present-day population on the west coast, which has increased 46 per cent since 1940, and is constantly growing, to the ancient city of Babylon, destroyed by pestilence. He further illustrated his point by borrowing a text "without vision the people perish." Sanitary science nas the necessary "know how," he said, and it is up to the people to apply this technical and administrative knowledge. Dr. Russell expressed his belief that by the passage of the sewer bonds at the election next Monday, the citizens of the county would possess the most economical, most stable and the best plan to protect public health of any yet presented, and one which would attract industry to this area.

Speaking for the consulting engineers, Loren Blakely pointed out that at present it is impossible to reclaim sewage water that has been used in agricultural processing plants in Orange county. The boron content in the sewage, he stated, makes it impossible to use this water for irrigation purposes. It would destroy any plant life with which it would come in contact, regardless of the processes involved.

As a final boost to emphasize the slogan of the Orange county citizen's committee for sewer bonds before Monday's election, "an informed citizen votes 'yes'," general chairman Herb Kenny urged that every member appoint himself chairman of a committee of one to tell everyone within the next few days of the importance of passing the bond election.

Body and Fender Specialist Added Robinson Garage

William A. "Bill" Neal has been added to the staff by the Robinson Motor company. He will take care of body and fender repair and painting. This service, together with the company's facilities to handle front adjustments and motor repairing, gives the people in the Cypress area additional hometown service.

Neal has owned his own business in Placentia, where he and his wife and eight-year old daughter, Reba Jo, reside. He was formerly of Orange.

CALENDAR

Organizations wishing to have meetings or special events listed in this weekly calendar are invited to contact the office of the Enterprise, Anaheim 28215, with their information.

THURSDAY—FEBRUARY 24
Masonic Meeting—7:30 P.M.—Masonic Temple.

NOTHING FOR NOTHING

How many people work for the government? Two million? Four million? Don't kid yourself. It's more like 50 or 60 million, or just about everybody who works at all.

Actually, the average employed person works for the government about one-fourth of the time. In other words, of the total earnings of the nation, the federal, state and local taxes take about one dollar out of every four. It may be as much as one dollar out of every three if the vast socialistic projects such as compulsory health insurance and more and more pensions for this group and that are adopted.

Some people fancy that the wealthy and the corporations pay most of the taxes. That's what the politicians want them to believe. It's true that corporations and individuals with large incomes pay a higher tax rate, but the bulk of the taxes collected come from the smaller taxpayers. Not only that, but the taxes paid by corporations don't come out of the air. They come, instead, from the sale of products and those products cost you more because the taxes are, of course, included in the price.

I RISE TO REMARK
By John Phillips

Once a year I am invited to a breakfast I wouldn't miss for anything. It cheers me up for another go at the "Fair Deal," or whatever the name may be under which national socialism is masquerading momentarily.

This is Ray Miller's breakfast for the Boy Scouts who come to Washington to make their Annual Report to the Nation, through its No. 1 citizen, the President. The Scouts are chosen from the Districts which had the outstanding activities during the year. We had a Southern California Scout last year; this year an Oakland Scout.

The Boy Scouts used to come down and, figuratively, hand their report in at the White House door. Miller changed that; he told them to dramatize it a little. Last year they had a huge book, the pages of which told the story. This year the report is a big target and the 12 boys put arrows in it, showing the activities, and told what they were.

The record would take pages. It covers an unbelievable variety of activities. As it says, "Scouts have helped keep fliers in the air and knock flies out of the air." It tells of work in toronadoes and in snow storms; of collecting needed articles, from coat hangers to clothes for Europe; of spraying campaigns and of public service. It indicates the acceptance in American life, not only of the Boy and Girl Scouts, but of the principles on which these organizations stand. It is characteristic that, at the United Nations Conference in San Francisco, the representative of one nation (guess which one!) arrived surrounded by eight hefty bodyguards, while the American representative arrived accompanied by one Boy Scout.

As I said last year in a similar letter, I like this annual evidence that here in America we still have organizations training the boys and girls to believe that the strength of a nation is the strength of its citizens; not what they can get from Washington, not charity, nor controls, nor "security." Scouts' help comes from their own efforts, not from coming to Washington to ask for government help for everything and everybody.

The breakfast is an institution, and so, for that matter, is our host, Dr. Raymond W. Miller. Starting on a California ranch near Stockton, he has come up the ladder of cooperation and public relations for agriculture until his "clients" today are cooperatives, or forward looking groups, or governments themselves. He starts now on a trip around the world as a consultant for the FAO, the international Food and Agriculture Organization.

These infrequent breakfasts bring together men from all over. If it's a Boy Scout breakfast, the man who is introduced as an "Eagle Scout," may turn out to be the Attorney General of the United States. If it's an agricultural breakfast, the "farmer from Canada" may be the Minister of Agriculture.

There are times when I need the cheering influence of this Boy Scout breakfast. For two years the Committee on Appropriations took the budget apart item by item. In my subcommittee alone, that produced a saving of $1½ billion. One agency, to which a subcommittee last year gave 3½ days, this year got through in two hours, yet that agency wants $233,000,000 — an increase of 16%, and 7,000 new employees.

I am sure no Boy Scout would expect to get his merit badge on work like that.

Pasadena's Nazarene College Choir To Sing In South Gate Sunday

The Pasadena College A Cappella choir will appear at the South Gate Church of the Nazarene Sunday, February 27, at 2:30 p.m. for a concert of sacred music. The choir, consisting of sixteen men and eighteen women, under the direction of Professor Chester C. Crill, director of music, will give a program of sacred music, hymns, gospel songs and spirituals purposing to deepen the spiritual morale of the church through the instrumentality of the highest type of sacred singing.

The Reverend W. D. Howard, of the local Church of the Nazarene, reports that the choir is an organization of outstanding ability whose spiritual interpretation and presentation of sacred music is unexcelled. He urges everyone to be present at the church, located at 9628 State street in South Gate for this special program.

Baptist Church Minister Honors Boy Scouts Here

The Reverend Arthur King paid tribute to the local troop of Boy Scouts on Sunday morning which honored the 39th anniversary of scouting in America in his worship service. Using as his theme, "Being prepared," he enlarged on the Boy Scout slogan, bringing to the boys and their leaders a message of thought-provoking inspiration.

The boys attended the service en masse, and were accompanied by members of the sponsoring Cypress Post No. 9847 of the Veterans of Foreign Wars.

Catholic Dinner Last Sunday Is Great Success

Over 800 people enjoyed the roast beef dinner which was served by members of Our Lady of Fatima society of Cypress in Portuguese hall in Artesia last Sunday, according to the group's publicity chaiman, Mrs. Ida Smith. Proceeds from the benefit dinner will be added to the building fund to erect a church in the near future at Grand avenue and Orangethorpe. The parish of St. Pius V will serve members in the Cypress and Buena Park area.

The group in charge of the dinner is especialy grateful to Mrs. Pauline Godinho, of Artesia, who took complete charge of the cooking, and also to the many women and girls who helped throughout the preparations on Saturday and the serving on Sunday to make the project a financial success.

AGRICULTURE PUPILS INVITED ON TOUR

Members of Orange Coast College's agriculture class are sponsoring an invitational field trip to the Imperial Valley region on March 4, 5, and 6. Agriculture students from high schools, which includes Anaheim and other schools in Orange county, will accompany the group.

Elwood Spencer, agriculture department head at Orange Coast and former agriculture instructor at El Centro JC, will be in charge of the group. Stop-overs have been scheduled at many points of interest in Imperial Valley. Approximately 70 young farmers will make the trip, utilizing school buses and automobiles.

Guide for Voters on Sewage Disposal Project Election on February 28

(Editor's Note: This is the last in a series of articles describing the sewage disposal problems in Orange county generally and in Sanitation District 3 specifically. District 3 embraces this community so the series is deemed appropriate with a Sewer Bond election pending Feb. 28.)

3. Cost of Proposed Sewer Facilities

The preceding article dealt with the existing and proposed sewerage facilities in Orange County. This article contains cost figures of the proposed system which has been recommended by health and engineering officials to provide suitable sewage disposal and as a preventative measure against pollution.

Already the state has declared that over three miles of Orange County beach area is in danger of quarantine. Subdivisions are being refused because of inadequate sewage disposal. The underground water supply is endangered. All development, including new industry is being throttled by the sewage disposal limitations.

The marine section of the ocean outfall is estimated to cost $1,500,000. District three requires 26.55% of the capacity of the ocean outfall, which would cost an estimated $398,250. The grand total or amount proposed for bond issue for District 3 for all works is $1,364,000.

A uniform tax rate (which by law cannot be changed) of 12c per $100 assessed valuation will be levied in accordance with the plan. This is roughly one package of cigarettes per week per taxpayer. Revenue derived from said tax will provide monies for the retiring of 40-year serial bonds at an assumed interest of 3½% to finance construction of the works proposed and for installment payments.

Since the bonds will run 40 years future users will pay their share, too. Each of the seven districts is an entity in itself. Therefore, each district and area will be paying its 'fair snare," based upon present and future needs.

As indicated in the previous article the joint disposal plant would convert sewage sludge into valuable vertilizer which would pay for 50% of the operating and maintenance expense of the plant. Another valuable by-product, gas, is produced during the sludge digestion process, which can be used in internal combustion engines to generate power and electricity for use at the plant.

Chlorination, which merely removes bacteria and is not a solution to the problem, costs $150,000 yearly at the present time. This is equal to a $2 million investment and is merely treating the sewage, does not dispose of it.

Orange County would have allocated by the State Department of Finance $553,968 for use on the proposed county-wide sewage plan.

These "Chapter 20" funds would be granted under the Construction and Employment Act.

Participating in the joint outfall sewer would be County Sanitation Districts 1, 2, 3, 5, 6, 7 and 11.

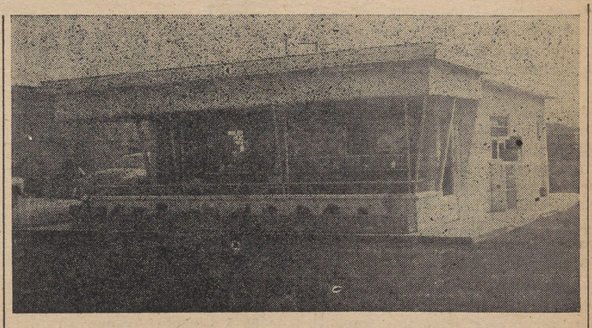
WISHING FOR YOU

THE GREATEST SUCCESS

A. E. Arnold



The above picture shows the new Triangle Drive-In on Lincoln Avenue in Cypress which has its grand opening Saturday, February 26. Free coffee and doughnuts will be served throughout the day.

TRIANGLE DRIVE-IN IS SET FOR BUSINESS ON SATURDAY WITH GRAND OPENING

An attractive white stucco building, 26 x 30 in floor space, the new Triangle Drive-In restaurant on Lincoln avenue, has had installed by a Los Angeles firm the very latest equipment for counter, soda fountain, tables and chairs, frigidaire, etc. Cypress is credited with one of the very first of this type of buildings in southern California. Outside fluorescent lighting and "slim-line" lights inside are a feature of the building. Curb service will be an added advantage.

Mr. and Mrs. John Thomas extend a cordial welcome to new friends and neighbors to visit them for their open house Saturday.

(POLITICAL ADVERTISEMENT)

YOUR 'YES' VOTE CAN PREVENT THIS

To prevent quarantine of our beaches, taxpayers of Orange County are now spending approximately $150,000 a year for chlorination — a temporary solution to a constant menace.

A new, adequate outfall sewage disposal system is imperative now to prevent the danger to health depicted above. Save our beaches, save lives, insure the continued growth of Orange County!

PERSONALS CYPRESS

Miss Dorothy Doerr, of Santa Barbara, spent the week-end in the home of her brother and family, Mr. and Mrs. Stan Doerr.

Rick Townswick, who operates the watch repair shop, has been absent from his place of business recently because of a badly infected eye.

Clint Moore, who formerly operated the do-nut shop, was a Monday visitor in Cypress.

Miss Elizabeth Dickerson, Cypress school superintendent, took advantage of the four-day school holiday by motoring to Palm Springs where she joined a group of relatives.

Gerald Kelly, son of Mr. and Mrs. Orville Kelly, is a patient in Orange County hospital where he underwent surgery on Friday.

Mrs. Evan Pugh left Saurday by Western Air Lines for San Luis Obispo where she spent several days visiting her son and family, Mr. and Mrs. Melvin Pugh.

F. E. Stowers is a patient in Orange County hospital recovering from a recent operation.

Mr. and Mrs. Harold Pugh have moved into their newly completed home at the corner of Newman and south Walker streets.

Mrs. Arthur King, Mrs. Martha Warman and Mrs. Troy Stinson attended the District Mission Study institute of Baptist churches which was held at the Emmanuel Baptist church in Santa Ana on Friday. Chief speaker was Miss Bernice Elliott, state young people's secretary of New Mexico.

Mrs. Sarah Miller had as her guests for several days this week, her nephew and niece, Mr. and Mrs. Bruce Tompkins of Escondido. On Sunday they motored to Bellflower where 14 family members gathered for a get-together. W. C. Miller of Cypress joined the group in the afternoon.

Mr. and Mrs. Walter Nabower are spending two or three weeks visiting friends and relatives in the latter's former home state of Arizona. Upon their return next week, the Nabowers plan an extended trip in their house trailer.

Mrs. Len White and daughter, Miss Darlene White, of Pasadena, spent the week-end in Palmdale visiting former Cypress friends, Mr. and Mrs. Jerry Young and their son-in-law and daughter, Mr. and Mrs. Haldean Cummins.
